## Remembering to be Thankful This Season

changing interiors from "blah to ahhh"

**In the midst of business and stress, we'd like to take time to be grateful for the various blessings in our lives.**

**I'm thankful for my health** now that my hip is "fixed" and being able to eat a bountiful Thanksgiving meal.

**I am thankful for my husband**, who vowed to be my biggest fan on the day we were married and has never once let me down.

**I am thankful for the gift and work of designing-** that it is both extremely rewarding and challenging at the same time. Easy to do, hard to master. Always learning. Always rewarding.

**I am extremely thankful for the online community of colleagues and connections** who are making a difference in the world. You guys inspire me.

**I am thankful for living in a town full of creative minds and opportunities.**

**I am thankful for creating spaces** that matter and enhance people's lives.

**I am thankful for art.** Its creativity and emotion inspire me to create my own. I just finished helping to design a stunning abstract painting on my coffee table that will be the focal point in my Great Room.

**I am thankful for downtime-** for being able to turn part of my brain off and still be inspired.

**Lastly, I am thankful for being able to give to those less fortunate**, the devotion from my family, the appreciation from my clients and for friends that always know when to call.

**We at Designz wish all of you Happy Holidays  
and a Joyous New Year.**
